The Hawaiian Electric Co., Ltd.**Business Care Brings Nervous Wear**

The petty cares of business life wear away nervous strength, and this applies as much to the clerk at the desk as to the manager in his luxurious office. A thousand little details of duty requiring attention exhaust the nervous energy and cause one to fret over trifling things that would not receive a second thought under conditions of perfect health.

Nervous fretful persons of either sex are usually poorly nourished and in all such cases the surest and quickest permanent relief is to be had by the use of

Stearns' Wine of Cod Liver Extract

which first quickens the appetite and aids the digestion and enriches the blood, thus providing the tired nerves with the nourishment they need. This condition banishes the wakefulness that so many nervous people suffer from and permits them to enjoy sound restful sleep. Get Stearns' Wine of Cod Liver Extract at your druggists—and be sure you get STEARNS'—the genuine.

**HAWAII GETS NO PART OF BIG
FUND FOR ARMY MANEUVERS**

Inability of Militia to Participate with Regulars Cuts Off Territorial Share of the One Million Three Hundred and Fifty Thousand Dollars.

Because the National Guard here does not care to participate in joint maneuvers with the regular troops this year, Hawaii will get no part of the \$1,350,000 appropriated by the House for army maneuvers. Furthermore, orders have just been received from the Western Division, directing the Department Commander to disregard the organized militia in all plans for the maneuvers of the Army of Oahu for the present year.

Some months ago Colonel Jones, adjutant general of the Guard, informed General Macomb that the militia was not sufficiently advanced to receive benefit from a maneuver campaign with the regulars, and that it would go into a separate camp. Another reason given for this action was that the militiamen could spare only five days for their encampment, and that is they joined the regulars the greater part of this time would be taken up in reaching and returning from a joint camp, and that the men would have at most a couple of days in the field.

By this action, however, Hawaii is left out of the ample appropriation recommended by the House committee on military affairs, and no extra funds will be available for either the guard or the regulars.

The date for the former's camp has now been set for the latter part of August, the place selected being Moanalua. There is no friction between the militia and the Army over the failure to come together, and, in fact, one battalion of regulars will camp with the guardsmen for the last two days of their term under canvas, and engage in one or two problems.

Yesterday afternoon the board of officers appointed some time ago by General Macomb to work out a Fall maneuver campaign, composed of Majors McClure and Wholley and Captain Carter, recommended that the Fort Shafter battalion of the 2nd Infantry join the Guard and assist in mimic warfare. The militia camp will be less than two miles from the third battalion's post, the arrangement should work out with the minimum of trouble and no extra expense to the Army.

The regulars will maneuver in September or October all the troops with the exception of the Coast Artillery taking part.

**1600-ACRE PINEAPPLE TRACT
WILL GO TO HOMESTEADERS**

Governor Frear Makes Announcement Regarding Lands Near Kapaa on Kauai—Beach Lots Included — Land and Climate Are Pronounced Unexcelled.

Sixteen hundred acres of as good a pineapple land as any at present under cultivation in the Territory is to be thrown open to homesteaders within the next few weeks. This is the announcement today by Governor Frear.

The land is virgin soil, situated near Kapaa, on the island of Kauai. It is to be divided into eighty or eighty-one homestead lots, of approximately twenty acres each, and will be opened as soon as the tract can be appraised and the homestead drawing properly advertised.

Land Commissioner Joshua Tucker, who conferred with the executive this morning on the proposed homesteading, assured the Governor that the land is in one of the best pineapple tracts in the islands. He says it is a beautiful region, has an unexcelled climate and is in the vicinity of the proposed new pineapple cannery which Mr. Lutted contemplates constructing. He says the land is quite clear of timber and has been used only for grazing. It is fine pasture land and is covered by a dense growth of grass.

The method by which the tract will be homesteaded has not been definitely determined. Governor Frear says there are four systems that may be selected, but it is not determined whether any particular method of acquiring title will be selected for all the lots, or whether the homesteaders will be given their choice of one of the four methods of acquisition.

On or about the same time a number of excellent beach lots, all facing the sea on the bay of Hanalei, one of the most beautiful bays on the islands, will be thrown open for purchase at public auction.

These also remain to be divided, appraised and advertised. They are intended for residence sites. The land commissioner says they are unexcelled in climate, in the view to be obtained and in the magnificent shelving, sandy beach that will extend from each lot down into the bay.

Appraisers will be sent to Kauai very shortly and the lands in both tracts offered to the public as soon as possible.

quotation of 30.50, all in recess. Pioneer advanced three-eighths in sales of 18, 5 and 5 shares at session. Oahu, with sales of 25 and 25 at 7.50, is marked up an eighth. Holding their own are Waialua with 5, 10 and 10 shares at 125 and Paha, with 50 and 5 shares at 215, while H. C. & S. with 20 at 43 and 8 at 42.875, shows a decline of an eighth in the latter figure.

Oahu Railway makes a jump of four points in sales of 15 and 47 shares at 140, and 141 is now asked. Bonds are still moving; sales reported being \$1000 Natomas 6s at 94 and \$5000 McBryde 6s at par.

**FREAR PREPARING
TO FILL VACANCIES**

Several appointments of Territorial officials are to be made in the very near future. Governor Frear, while not naming any of the offices involved, said today that a number of vacancies will be filled within the next few weeks. It is understood that one of these will be the successor to Marston Campbell, superintendent of public works, whose resignation was placed in the Governor's hands some time before the latter went to the mainland.

At that time Frear announced that he expected to attend to that vacancy as soon as he returned. Meantime, Campbell is continuing to act, until his successor is appointed and qualifies for the office. The Governor has given no intimation concerning the identity of the next superintendent in that department.
